Overview

Wow! This home offers so many things not typically found in homes of this price range! Imagine a huge family room addition along with the living room all on the main level. There are 3 bedrooms all on the main level...and the large primary bedroom has its own private bathroom and sizable closet. The floorplan is very open and invites entertaining/gathering with friends. The basement is mostly finished and offer a bright and large laundry room along with a spacious craft/hobby/fitness room (plus this basement is packed with storage closets galore!). This property is on the corner of 2 quiet roads giving you a feeling of privacy with fewer immediate neighbors. To top things off all of the fun stuff can fit into the oversized 2-car garage.
