Overview

This circa 1900s Craftsman gem is sited on 23.75 acres with full appreciation of the innate beauty of the Connecticut River Valley and the mountains beyond. Artfully designed perennial gardens, stepping stone pathways, and an outdoor stone patio complement the natural scenery and panoramic landscape. Walk up an inviting stone pathway to enter into a woodworked gallery of rooms with French doors, beautiful artistic stone fireplace, window seats and exquisite period lighting fixtures. The first floor consists of a large family room and gourmet kitchen with a half bath, ample closet space and an expansive family room that boasts a sweeping view of the mountain ranges as far as the eye can see. On the second floor you get the feeling that you are constantly enjoying the delights of the forest surrounding you. A large master en-suite with a walk in closet and large tiled bath greets you at the top of the staircase as well as a second spacious bedroom with full tiled bath and sizable laundry room. Finally, the third floor opens to a multi use room and large bedroom split by French doors complete with a half bath. A new wrap around deck completes the home's offerings with the pinnacle of endless sunsets and the seasons changing colors. Located at the end of the paved circular drive is the 3-car heated garage which includes potential for an ADU above. The property is located 11 miles to Hanover, NH, 11 miles to the Lebanon Municipal Airport. Delayed showings start Friday, Sept. 6.
