## Overview

This charming Craftsman-style 1.5-story home sits on an expansive corner lot with a large side yard. Inside, you'll find stunning hardwood floors, beautiful original wood trim and moldings, and an eye-catching stone fireplace, all complemented by an abundance of natural light from the many windows. The main floor houses two living room areas, a dining room, full bathroom and a den or office that can double as guest quarters, plus the spacious kitchen, complete with a large center island. The second bathroom and all three bedrooms can be found upstairs (one is complete with a balcony overlooking the back yard!). The unfinished basement offers ample storage space, as does the one-car detached garage, and a carport rounds out the offerings. The plumbing, electrical systems, furnace, and central air conditioning have all been updated in recent years, the exterior was freshly painted, and a new deck was put on. All appliances remain with the home, making this a great move-in ready option. Centrally located in the middle of town on Main Street, it is in close proximity to schools, parks, and recreation amenities. With its unique character, warm and inviting feel, and large yard, this home is not to be missed!
