Overview

Home is currently under construction and will be ready Nov/Dec 2024. Eastwood Homes is offering the gorgeous Davidson floor plan with a THIRD CAR GARAGE with the Primary Suite on the second level. If you like open concept with lots of windows and tons of light, our Davidson is the home for you. There's so much to enjoy: separate office space, lots of kitchen cabinets including a butlers pantry, separate breakfast area for informal dining, and a large island - great for gatherings with friends and family - which opens to the family room. There's more: imagine enjoying the sounds from a crackling fireplace on a crisp night, or reading your favorite book on a comfy chair in the loft upstairs, or taking in the sun's rays on in your back porch. As you wind down for the day, enjoy nature from your extended patio which overlooks natural views and not your neighbor's back yard. Our very talented design department curated the appointments for this home: Interior selections include lovely shaker style cabinets, gourmet kitchen with quartz counter tops in kitchen, and craftsman style trim in formal areas and the Primary bedroom. The exterior features beautiful and long-lasting architectural shingles, stone front and Hardie plank cement fiber siding. Come see what all the excitement is about at Twin Lakes master planned community with top notch amenities! Pictures are representative and not of actual home.
