Overview

WOW! This property checks all the boxes! An OPEN CONCEPT home in the desirable WASHBURN RURAL School District, this property encompasses 14+ m/l acres, a fishing pond, and two large outbuildings. This home was completed remodeled by the interior design company, Golden Rule, in 2020. At that time the owner also updated the HVAC system. Catch that big fish or turtle-watch at the pond, and reconnect with nature as you traverse the walking/riding trails. Some of our favorite features include the giant island with quartz counter tops, Custom Wood cabinets, matching Cafe appliances, oak hardwood floors w/walnut stain. This beautiful property is made for entertaining, so call us for a private showing today!
