Overview

You can't find many double lots with a beautiful ranch on them, but this house is right on the mark! This 3 bedroom, 2 bath ranch has a living area, a kitchen open to the dining area and a fantastic sunroom that would be great for the family to watch football on a fall afternoon, or could also be used as a great room for the children to play while you enjoy the sunshine all year long through beautiful windows. The attached large garage has extra storage area and the 20 x 10 ft shed has a workbench and plenty of room to store those extra items. The sellers are also giving the new buyers a home warranty too!
