Overview

Your Forever Home Awaits in Allen Park Fully Renovated and Ready to Impress! Tired of cookie-cutter houses? Looking for a home that has personality and maybe a little sass? Well, look no further! This stunner in Allen Park is located on a quiet dead-end street, perfect for those who like peace and quiet with just a dash of scenic flair. And let's talk convenience—it's basically the dream location for anyone who's constantly on the go, with freeways and all your living necessities just around the corner. (Need milk? Done. Need to escape on a spontaneous road trip? Also, done.) This house didn't just get a facelift; it got the whole spa treatment from top to bottom. New roof? Check. Brand new furnace, A/C, plumbing, and ductwork? Double-check. You can sleep easy knowing that literally everything has been handled. No surprises here unless you count how amazing this home looks inside. The kitchen? Let's just say it's ready for its HGTV debut. Rustic hickory lower cabinets bring the cozy vibes, while the solid white quartz countertops and elegant 42-inch antique white shaker cabinets give it that I'm fancy but still approachable aesthetic. Plus, there's so much storage, you might finally have room for that 17-piece kitchen gadget set you impulsively bought on Amazon. With over 1,700 square feet of space, you'll have room to stretch out, entertain, or just revel in the luxury of having 4 bedrooms and 2 full bathrooms (no more fighting over shower time!). The first-floor

laundry is a total game-changer because who really wants to lug laundry up and down stairs? And don't forget the quaint deck out back perfect for sipping coffee or enjoying an adult beverage while pretending you're not just hiding from the kids. Oh, and did we mention the 2-car garage? Your car will never feel more pampered. So, if you're looking for a house that's as smart as it is charming, this might just be the one. All that's missing is you and maybe your extensive plant collection.
