Overview

Why wait for new construction when you can enjoy this 3 year young home now. Within walking distance to downtown Exeter this 3 bedroom 2 bath home with oversized two car garage has many unique and upgraded features you won't find in cookie cutter construction. From the custom backsplash in the kitchen, shiplap feature wall, stone patio, granite entry walkway and beautiful tilework in both of the bathroom the quality of construction will not disappoint. The open floor plan encompasses the custom kitchen with granite island, stainless steel appliances, and custom lighting along with a ample dining area with two closets and living area with gas fireplace to take the chill off as fall arrives. A full bath rounds out the first floor. Upstairs the primary bedroom has a generous walk in closet along with two other bedrooms and a custom tile full bath and laundry. The lower level has a two car garage which is large enough for storage or a workshop along with closets and storage. This home is part of a three home condo association with quarterly fees to cover the master insurance. The back yard is very private with new shed, firepit and gorgeous patio. Within walking distance of Swasey Parkway, Exeter's fabulous restaurants and elementary schools.
