Enter through the charming covered front porch with bench swing into the inviting foyer with hardwood floors. The circular floor plan flows into a cozy den with pellet stove and then into the living room, featuring a center fireplace and sliding glass door to the back yard. The living room is open to the kitchen, which has hardwood floors, an island, double ovens, plenty of pantry storage plus space for a table in front of the bay window. The kitchen connects to the dining room and a functional mudroom with access to the garage or back yard. A half bath finishes off the first floor. The upstairs provides 4 bedrooms and 2 full baths, including a spacious primary bedroom with private bath and walk-in closet. Partially finished basement. The oversized garage has room for two cars and your lawn equipment. Outside you'll find a great yard with a large two-tier deck offering plenty of space to entertain, perennial gardens and an automatic on demand generator.
