Overview

This home is truly one of a kind! A classic, custom-built cape that is a must-see. Be prepared to fall in love with the open foyer and its stunning brick floor. Charm is throughout this home especially in the well-equipped, eat-in kitchen with exposed brick and in the beautiful living room with its wood-burning fireplace and built-in bookcases. The first floor also has two spacious bedrooms and a full bath. Set off by itself, is a front to back room used as a combo sitting and dining area but would also be an ideal office space. There is space for everyone with a very versatile floor plan. The sunken-in family room with a cozy gas-burning stove has tons of natural light and opens to the deck, an ideal entertaining space. The deck, framed with red and white concord grape arbor, overlooks the beautiful yard filled with mature plants and flowers. The second floor has a lovely 3rd bedroom and an additional area that could be finished as an office. The brand new oversized 2 car garage has a second floor that is just waiting to be finished with lots of windows and a slider. This wonderfully maintained home is in the center of town, very close to the library, the town hall, the School Street Caf, and the elementary school well as an quick commute to both Manchester and Concord.
