With this timeless 3 bedroom 1.5 bath brick home you can own a model of charm and elegance for a bargain price! Relax on its large, covered front porch or spend your weekends tinkering in your 3 car garage. The stunning woodwork in this home will capture your attention the minute you walk through its beautiful front door framed by its original leaded glass side lights and transom into the gorgeous foyer. It's original hardwood floors have been refinished and the spacious living room is perfect for entertaining with a large front window and wood burning fireplace. Its dining room features coffered ceilings and a breath-taking one of a kind stained glass window. The kitchen of this home was completely gutted in 2016 and includes new cabinets, countertops, and flooring. There is an abundance of storage as well as a convenient main floor half bath.
