Overview

Beautiful 2nd floor condo in an elevator building with Flexicore construction. The building and common areas are clean and well maintained and offer a glass ceiling on each level of the staircase. Open the front door to the foyer and you'll see the spacious living room. The formal dining room is off the eat-in kitchen - all appliances are stainless steel. The master bedroom features a private bathroom with double sinks. There is a 2nd bedroom and a full guest bathroom, with a large separation from the master bedroom. Convenient, in-unit laundry. The balcony offers a nice relaxing view. Included is a one car shared garage along with a storage unit. Pets are allowed. Great location in a much sought after complex.
