Overview

An estate evoking historic Bluegrass homes, this fine residence is surrounded by thoroughbred farmland and the Hunt Country. Built by Koller Warner in 2022-2023, the home blends time-honored formal spaces with all the comforts of modern living. Behind the lovely front door and fanlight, a formal dining room, living room, and study await. Nearby, an inviting family room offers a floor to ceiling stone hearth with gas fireplace. Custom millwork and rich hardwoods grace each space. The heart of the home rests in its timeless, sun-soaked kitchen with accompanying butler's pantry. Verdigris-hued custom cabinetry complements heirloom brass fixtures. The attractive La Cornue range and Sub-Zero refrigerator are sure to please the chef. The porcelain apron sink alongside stone and butcher's block countertops brings further warmth. In the large first floor primary suite, double doors open to a gleaming bathroom. A soaker tub and marble-lined shower lend classic style. Currently 3 BR and 2.5 BA, two further BR and a full bath have been roughed-in upstairs. Two porches and a patio offer verdant views, including both mature and burgeoning trees. Additional acreage may be available.
