## Overview

Welcome to Maple Meadows - Bristol RI's brand new, architect-designed construction home set on a half acre of lush landscaped grounds, steps to the Audubon Nature Center with beautiful trails, guided walks, and access to the fifteen mile waterfront East Bay Bike Path that stretches over multiple Rhode Island Coastal towns, from Providence, RI to the heart of downtown Bristol, home to the country's oldest 4th of July Parade! This stunning residence, on a quaint culdesac, exudes exceptional attention to detail with custom finishes, sun-drenched with open concept living, and the sought after first floor primary suite completed with a gorgeous marble bath. Other highlighted features include: nine foot ceilings, custom millwork, oversized pantry, mudroom, first floor laundry, wide plank hardwood flooring, and irrigation system. The eat-in kitchen, with eight foot quartz island and Thermador stainless appliances is a showstopper! The 3500 square foot home provides three additional bedrooms on the second level, one with en-suite bath, that could be a second floor primary option. Two additional bedrooms share a guest hall bath, and there is an unfinished flex room that one could add more finished space for a home office, gym, or bonus room. Ready for October occupancy !
