Overview

This property could be the dream come true for anyone looking to escape the hustle and bustle of city life and embrace a more self-sufficient, peaceful lifestyle. The combination of a well-built, brick home with "good bones," an abundance of fruit trees plus open space for gardening, all set within a private and serene environment, is ideal for those seeking a retreat. The 3 bedroom, 2 bath home includes a spacious kitchen and dining area with loads of cabinetry for storage and organizing. You have walk-up attic access with an attic including flooring and attic fans on each end. The cozy family room includes a masonry fireplace and built-in bookshelves. Step out from the family room to your back patio and enjoy the winter views and plenty of wildlife year round. The walk-out basement includes a root cellar, another masonry fireplace plus plenty of space for a workshop and hobbies. The opportunity to update the home to your taste adds a personal touch, while the potential for living off the grid provides an additional appeal for those wanting to reduce their carbon footprint and embrace sustainability.
