Overview

This prairie-style home on 13+ acres is perfect for those who appreciate a connection to nature and a focus on craftsmanship! Upon entering the home you're surrounded by beautiful custom woodwork and HW floors, soaring ceilings and walls of windows that bring the outside in. Curl up next to the stone FP in the great rm, entertain in the gourmet kitchen with hi-end appliances and granite counters, gather for meals in the formal DR or sunroom, relax in the screen porch, play games in the finished LL with wet bar, then retire for the night to the exquisite master suite. An outdoor sanctuary awaits with an abundance of wildlife and birds, mature trees, cattail marsh, and direct access to Glacial Drumlin bike trail. And let's not forget the 3-car heated garage and public access to Rock Lake down the road!
