Overview

Cabin in the woods. This home is in a gated community with access to Lake Tillery, tennis courts, a great pool overlooking the lake and so much more. This could be your perfect getaway for your family or a hunting lodge for a few friends to share. The basement has just under 500 heated square feet with a half bath. The home has a cabin feel and pretty as can be. There is a pretty rock bottomed creek for kids and puppies to play in, and a deck on three sides of the home with tremendous outdoor living space. Such a pretty place and priced right.
