Overview

If waterfront lake prices are too high, then you should consider this great location, which is just three houses up from the lakefront, on beautiful Columbia Ave. It is also just a brief stroll to Brinkley Park, which is a perfect place to enjoy the outdoors, exercise, watch sports, and more. It is hard to find a better neighborhood at the lake than this. Setting between Sutton Place I and Sutton Place II, this is pricing below that market area. Check for yourself! Downstairs, this home features two bedrooms and two full baths, with plenty of sitting comfort as well. Upstairs, it has two bedrooms and a half bath that is not being considered in the square footage. That's a bonus! Both upstairs and downstairs are heated and cooled with a practically new system (2022). If you want to be in a lake atmosphere, this is the ideal location. You will love what this home has to offer. It's waiting for you and the family...
