Overview

Well maintained home in Highland Ranch with three bedrooms, two full bathrooms and a two car garage. Enter the home through the spacious great room with sufficient area to entertain or relax with friends and family. The kitchen is open to the dining area with access to the backyard. All bedrooms are located down a hallway with access to a laundry area. RV parking through the double gate allows access to the extra large backyard. The front of the home is nicely landscaped and the backyard has a patio area for entertaining and rock landscaping for minimal maintenance. There are two sliders, one from the kitchen and another from the primary bedroom, providing access to the back patio. The exterior and interior of the home was recently painted and the hot water heater recently replaced. LVP Flooring, windows and sliders have also recently been upgraded and replaced.
