Overview

This single floor year-round home on Eastham's ocean side has been completely transformed by the current owners and feels like a new home. Commencing with the exterior, natural gas was brought from the street for conversion of the mechanicals and utilities, town water installed, new architectural roof, dipped shingles, Azek trim, gutters, custom doors, retaining wall, etc. A beautiful new wooden fence envelops the half-acre lot, perfect for dogs, children and private enjoyment of the yard. The existing home was expanded with the addition of a light-filled great room with glider and transom windows, cathedral ceilings, multiple use options and access to the deck and rear yard. The completely redone kitchen is both aesthetically pleasing and supremely functional. Artful mosaic tile wraps around to the spacious laundry/entry room. The living room features a wood fireplace, the main bath was exquisitely updated with Cambria quartz and barn glass doors. Lutron lighting, central AC, Mass Save efficiency upgrades, Rinnai gas hot water. Full walkout basement has great potential. Enjoy all that Eastham's ocean side has to offer including world-famous Coast Guard Beach and the CC Rail Trail. Seller will entertain offers that include a request for Buyer concessions.
