## Overview

Great 10 acre tract located just outside of Early Tx with water and electricity in place. This irregular shaped tract has an old farmhouse that does not appear to be functional but the spot has a great homesite and the land has abundant trees and cover for wildlife and livestock. There is an old metal building that could be used as storage with a little work. There is a decent stock tank located in the back of the land that holds water and has only been dry once in 35 years. Fences are not in good shape.
