Overview

Welcome to the peaceful north side of Lake Minnewawa. This property abuts over 400 acres of state land. The SW facing lakeview is spectacular. The nicely manicured lawn and beach area will provide your family many hours of fun and sun for years to come. Hello memories! Inside, you will enjoy the many updates along with 4 bedrooms for hosting friends and family. If storage is your thing, you will be satisfied. The upstairs cabin feel will be a cozy area for your closest friends. The home also has an indoor fish cleaning station on those days where the fish are cooperating. The new furnace, condensation coil, water softener, water drinking system, roof and water tank will provide peace of mind that the house operating systems are good to go. On those days that mother nature gets irritated, the propane generator provides the power needed to run everything if the power goes out. The dock, boat lift and all appliances are included. Toys and furniture are available to purchase.
