## Overview

Imaging stepping back in time to a sweet cottage built in 1911 for your weekend retreat. This semi-updated using much of the original materials boasts two bedrooms with a great air conditioned bonus room upstairs with an open air deck and full bathroom. Some of the original hardwoods still surround this cottage from floor to ceiling. Claw foot tub in downstairs bathroom completes the historic feel of this property. This cottage was set up in the Short Term Rental so when you aren't enjoying it, it could be income producing. The corner oversized lot offers plenty of room to build a boat storage to store all the coastal toys. Mature shade trees in fenced back yard perfect for the dogs. Sit on the enclosed side deck complete with screens and enjoy a distant view and coastal breezes of San Antonio Bay. This property is walking distance to Bay Avenue and the lighted pier and great San Antonio Bay Fishing. Scan the QR code for complete listing details!
