Overview

Almost new condition! This home has been barely lived in. The open main floor, with its morning room showcasing a beautiful sun-drenched marsh view, provides an inviting space for formal dining and family activities. The inclusion of a fireplace in the family room adds a cozy touch. The spacious kitchen with innovative and stylish GE Profile Series stainless steel appliances, an oversized island, charcoal blue birch cabinets and white quartz countertops, along with rollout cabinets, suggests a modern and functional culinary space. The mudroom and half bath contribute to the convenience of daily living. The upstairs area, featuring four bedrooms and a separate laundry room, caters to practical living. The lower level, set for a future bath, bedroom and rec room, offers potential for additional living space. The Rain Bird Irrigation system and the cul de sac lot with maximum width space between homes are valuable features for outdoor maintenance and privacy, respectively.
