## Overview

This is the one you've been waiting for. Updated 2-bedroom home with large bright living room, huge dining room, 2 bedrooms and an addition that was done in 2002. The addition consists of a large kitchen with built-in counter for eating, drinking your morning coffee or after-school homework. This addition is 22X17 and has first floor laundry room as well as a bath. There is a cement block basement under this addition with 200 AMP Electric, new furnace in 2016 and an electric water heater. Updates include roof, siding, windows and most doors in 2019. The 22X10 enclosed front porch is all insulated and makes a great storage area. This is a really nice home and would be a great starter home. Come view it soon before it is gone!
