Overview

Fantastic family home in highly desirable Pantego! Lovely older neighborhood with huge trees, well maintained homes and close to everything. Updated kitchen is roomy and very functional. Family room is HUGE with a wet bar and custom built ins on the fireplace wall. Newer engineered hardwood flooring throughout the home (no carpet). Large primary suite downstairs with dual closets and en-suite bath. Three bedrooms upstairs have great separation for added privacy. Storage galore including above the garage. Large front and back yards and plenty of parking with the side-entry double garage and the two-car carport! Conveniently located near the Arlington entertainment and sports district and the University of Texas at Arlington campus.
