Overview

We are very pleased and honored to offer this family farm just west of Greentop. The same family has owned this farm for over 60 years. There are 3 ponds and a cross fence for rotational grazing; a generous portion of this farm was hayed this year. The farm has good fences, with white vinyl by the house and well-established grass, making this a great cattle farm and good hunting in the wooded draws throughout the farm. This is a must-see to be appreciated, priced at \$331,200.
