Overview

Once on the property grounds you're greeted by features such as the separate 900 sq ft 2 car garage with AC. Entering the home you'll find a staircase to your left. To the right of the entrance you'll find the dining. Continuing through the foyer you enter the primary sitting area. Vaulted ceilings and stacked windows provide airiness and natural lighting. The fireplace centers the room and draws your attention around and through to the second sitting area. This area is open concept providing access to your kitchen. The kitchen is equipped with commercial grade Wolfe appliances and custom cabinetry. Private balcony access overlooking the lake is connected to the master suite. In the master bath you'll find a separate tub and walk-in shower along with dual vanity spaces. Out back you'll enjoy the views from your balcony or patio as you enjoy the heated pool and spa. This home is equipped with a 500 gallon propane tank as well as a Generac. Call to set up your private showing.
