Overview

Here is the perfect scenario for a first time home buyer or empty nester who doesn't want to be in a homeowners association. A home that will be brand new, located in a great growing community. It's a great roomy layout. 2 bedroom, 1.5 bath, full kitchen and even a laundry room/utility room. There are two choices of layout for you to pick from as you will see by the floorplans. It will be built on a large size lot which gives you a great yard for kids, pets and parties. The lot as you see it will be subdivided into two lots of .18 acres each. The architect and builder thought of everything so that you can make this a wonderful comfortable home at a very affordable price. Buying pre-construction will enable you to put your personal touch to the home and if you want to, you can discuss upgrades directly with the builder. Don't hesitate because this home will not last.
