Overview

Situated on a generous corner lot, this home's unique layout has room for everyone and opportunities to make the space just what you've always wanted. 4 bedrooms, 3 full and 2 half baths, 2 wood burning fireplaces, 2 separate entrances and a partially finished walk out basement; the Sellers have made thoughtful updates over the years. The hardwood floors gleam, the generous room sizes offer opportunities for creative renovations and the slate floored sunporch leads directly poolside. The crown jewel is the beautiful 20x40 inground pool updated in 2019 with a 20 year warranty; this is the perfect backdrop for hosting get togethers for years to come. Ideally located close to the Blue Hills Reservation for outdoor recreation, easy access to the highways N+S and just minutes to Boston. A tremendous value; the opportunities are endless and the space plentiful.
