Overview

Investors welcomed ! Here is an opportunity to double your income. Both homes need work. The 1 bedroom 1 bath is near completion. Due to retirement changes, the owners are going to sell these 2 charming homes. One home is near completion , with walls, shower stall and some decor the little cottage can be up and ready to move into while working on the larger home. Would also make a great family home with the larger home repaired and the smaller home used for in-law / guest quarters. Drive by and check these homes out.
