Overview

What an exciting opportunity this home boasts over 6000 square feet of living space, three car garage, big beautiful patio, handicap accessible ramp and potentially two private living areas. This home was custom built in the 1970s by a prominent local professional. Boasting so many unique architectural angles and beautiful design cues, this home boasts three fireplaces with beautiful Floor-to-ceiling, local limestone detailing. This home is a two story floor plan with a large kitchen including a gas range and three ovens on the main level. Several other rooms that you could make to fit your specific needs whether it be dining, reading nooks, service or bar areas, This home would be a lot of fun for someone to live on site and either live in the basement with a small kitchenette and have their own private space or the owners could also have the option of the newer addition. Enjoy some of the throwback features from the 70s with the lime green sinks, bath tub, orange bathroom or black bathroom. Some portions of this home still have the 70s wallpaper for a very fun retro, feel. Fort Scott KS is home of the first National Cemetery and is loaded with history through and through including brick lined streets, A wonderful old fort, Fantastic Museum and plenty of interesting architecture along the way. Gunn Park is a favorite while visiting with 155 acres of beautifully

wooded terrain, Two Lakes, highly desirable bicycle trails, fun for all. This great town has fun shopping whether you're looking for a new outfit or searching for some antique treasures. This home would be fun to call your own for sure! Travelers from around the country and the world would love to visit. GREAT Airbnb or Corporate Housing opportunity!
