Overview

This adorable home is located in one of Northfield's most prized locations. It is close to schools, parks, the recreation center, and shopping, and is New Trier School District. Not only is it light and bright, but it has room for all. A combination of living and dining areas makes it ideal for entertaining. The spacious family room with a fireplace opens to the deck and overlooks the yard. This is where family and friends gather to play games and watch sports. The bedrooms are conveniently located and nicely sized. The primary can open to the screened porch in the summer where one can enjoy a good book. The basement offers a recreation room, an office area, storage, and laundry. Enjoy the festivities at Clarkson Park and the proximity to the Northfield shops and restaurants.
