Overview

Conveniently located on the southwest side of the picturesque Woodstock Village Green, this classic c1840 Greek Revival farmhouse is one of the towns finest residences. Lovingly stewarded and thoughtfully restored to the highest standard preserving the historic integrity and honoring the period detail, all while achieving the perfect unification of sophistication, functionality, modern comfort and convenience. The first level of the original home features generous spaces for entertaining and cozy, intimate rooms for quiet reflection. Original wide pine plank floors, oversized 6/6 windows, formal parlor and library each with a working fireplace. There is potential for a first-floor primary suite. The main house is further completed by 3 ensuite bedrooms and laundry on the second level, and two guest rooms with a shared bathroom on the third. The magnificent, attached c1750 oak gunstock post and beam barn frame was disassembled, imported from Hampshire, England and added to the home in the 1980s, providing a Great Room beyond compare. Anchored by a massive stone fireplace, Palladian windows and a well-appointed chefs kitchen, all located on the main level. There is a guest suite, three car garage, and courtyard entrance on the walk out lower level stepping out to lovely, landscaped grounds and gardens.
