Overview

When in doubt, buy dirt, and this is as good as dirt gets without having gold or oil on it. One acre on the dot located in the Western Shores subdivision, around the corner from beautiful Kentucky Lake, primed and ready for your dream house to break ground. Membership in the property owner's association provides you with access to the public docks, boat launch, party gazebo, walking trails, stocked fish pond, infinity pool, and a beautifully protected property value with thoughtful architectural restrictions. This rolling, wooded lot is perfect for you to clear as much or as little as you want and build a castle on it.
