Overview

INIO 126 – This is the last cabin available in Phase 1! Welcome to NordHavn, a modern Scandinavian-inspired eco-luxury retreat on 44 pristine acres anchored between scenic Penobscot Bay and Camden Hills State Park, just minutes from the beautiful seaside village of Camden. The Inio 126 is one of 3 cabin styles created by Pluspuu of Finland for NordHavn. Set in an elevated forest glen with views of cascading waterfalls below and mountain ridgelines above, this exceptional home is immersed in nature. Let the rhythm of your day slow down. Imagine sipping your morning coffee on an expansive deck overlooking a rushing stream and lush woodland while listening to the peaceful soundscape of the forest. Enjoy an afternoon hike through private woodland trails connecting into the 5, 700-acre state park while breathing in pine-scented serenity. Stop for a dip in a refreshing mountain stream or a restorative soak in an outdoor hot tub after a session in a sauna. Later, enjoy a meal in the village and return home to gather around the community campfire for dark-sky stargazing, or simply to take deep pleasure in the beauty and sanctuary of your remarkable home. This is soul-satisfying tranquility. The smartly organized interior layout includes high-end finishes, custom cabinetry, an open living area with a floor-to-peak window-wall framing dramatic views, a sophisticated

designer kitchen, hardwood floors, a modern gas or wood stove and white-washed Nordic spruce wall cladding throughout. The primary bedroom suite opens to a flexible living space and includes a spa-like ensuite bath with a walk-in shower and free-standing soaking tub designed for indulgence. This special property is a turn-key, carefree condominium community which provides a respite from a busy world and offers a lifestyle like no other in mid-coast Maine. Project sitework and construction is underway. Unit E1 – To Be Built, available May 2025.
