Overview

Secluded Beauty! Custom built 3734 sf home, true to the original 1994 estate design with loads of large windows pointed towards the forest view, beautiful floor plan and hardwood floors, a fireplace in the living room and a huge entertainment kitchen. An over-sized double car garage also provides space for a workshop. The .55-acre property is comprised of 2 lots. One lot has the house and huge backyard on it and the other provides a 'U' driveway and a thick screen that provides privacy from the street and neighbors. The entire acreage is behind a screen of vegetation or fencing. The location provides luxurious enjoyment of warm and sunny summer days to an owner without the oversight of an HOA.
