Overview

This ocean front beach home at Haystack Rock represents the epitome of luxurious living, blending comfort, smart home functionality, and sophistication. A 1975 beach cabin was rebuilt in 2016 to augment the 2007 built garage and 1BR/1BA guest cottage. In the Main House, Smart home technologies allow you to manage your beach home from afar. A stylish kitchen boasts generous counter space and storage. Upstairs, the primary suite's sauna, fireplace, and ocean views inspire a harmonious, peaceful connection with nature as you begin and end your day. The lower ocean view level can be a separate living space with family room, kitchenette, wine cellar, 2 bedrooms and bath and covered patio. Come home to experience unparalleled views, making everyday a celebration of sophistication and leisure.
