Overview

Custom Home Experience Opportunity! Design and build your one of a kind net zero energy home with exclusive custom home builder, Cornerstone Homes. Buyers interested in Silo Community will require a land purchase to coincide with a cost-plus 20% construction contract with Cornerstone Homes. The cost of the premium lots range between \$375, 000 - \$390, 000 and we would just require an earnest money deposit of \$10, 000. If this option is chosen, buyers can purchase the land now and work with our in-house architectural team to either modify one of the existing designs (See MLS - 959651)to meet their space needs or start from scratch and design a home that is unique to them as long as it fits within the design guidelines of the neighborhood. Must See the Views!!!
