## Overview

Are you looking for a peaceful, serene, and private home, but still be close to Wilmington? Look no further, this custom built private oasis is awaiting! Did I mention it is an acre and a half wooded lot that backs up to Saunders Mill Creek. Hop on your kayak and go exploring nature at it's most peaceful surroundings. From the minute you drive up passing horse pastures, large homesites, tree lined streets you realize that you have found a true hidden treasure. Enter into the fenced in gated entrance and you are meet with an abundance of mature landscaping from hardwoods, blueberries, fig tree, hydrangea bushes, a grape vine, and of course creek front views, and you know that this is not your typical country property. Upon entering the renovated home, you will find true hardwood floors and upgraded molding. There is a laundry/mudroom upon entering the side porch, which leads to the updated kitchen with granite counters, stainless appliances, custom cabinetry, and a view that is unsurpassable. A spacious kitchen island with drop in cook top. Stainless Refrigerator remains as well as the built in flat screen tv. Yes, there is a window at the sink and a bay window at the breakfast nook overlooking the private landscaped nature setting in the back yard. The living area is spacious, very open, wainscoting, crown molding, built ins, wood burning fireplace with a wood

loading station adjacent. A true dining room for those family, or friends gatherings. There is also an office located off the mudroom with custom built ins, very cozy and out of the way to allow for any private business or relaxing time you need. Then take your tour upstairs with real wood treads to the spacious master suite with ensuite bath with tiled shower. There is a total of 4 bedrooms with 2 1/2 baths. Hvac's and ductwork recently replaced. The oversized double garage, cabinetry for all your storage. The backyard has a deck that is great for outdoor dining. You must see this! One-of-a-kind property!!!
