Overview

Dark Skies for your viewing pleasure! The proximity to Moab provides a balance between accessibility to amenities and the peace and quiet of a more rural setting. With 2.02 acres, there's plenty of room for building a dream home, a shop, a garage, and even a barn for horses. The views of the La Sal and Blue Mountains would add to the charm and appeal of living there. It seems like an ideal spot for someone looking for a scenic and spacious property in a tranquil environment.
