## Overview

Modern cool meets rustic chic. A dazzling opportunity to own an epic property on coveted, completely private East Ridge Rd. Across from the iconic, century-plus Waccabuc Country Club, this dramatic, sun-drenched 5, 685 SF home was very recently renovated, expanded and re-imagined by master architect Teo Siguenza and the current owners. The sleek, architecturally-significant home, has been re-conceptualized as a sophisticated country sanctuary and rebuilt with reclaimed antique-barn beams, Mohave Blue Porcelain floors, modern fireplaces, an array of high-end light fixtures, and an abundance of energy-efficient glass walls and doors. Redefining one-level luxury living, its exceptional open-plan design enables an endless flow: from living room and dining room with pristine blonde wood floors, to the kitchen and sunporch through to a show-stopping Old World hunting lodge/chateau-inspired Great Room, part of a 2021 expansion. Here's where the current residents love to gather: enjoying the soaring ceiling, exposed timber rafters, oversized windows, a wall of shelves for favorite books and art objects and naturally, a flat screen TV. Additional highlights include a sunny double-height office, a cozy four-seasons sunporch and premier chef's kitchen with sensational 6-burner Lacanche range, Sub-zero wine cooler and refrigerator, marble-top counters and

access to the outdoors. Multiple seating areas throughout offer infinite options for stylish entertaining. A striking wrought-iron staircase leads up to an expansive balcony/art gallery with plentiful wall space for monumental paintings; space includes a billiards area and access to an enclosed storage area. The first-floor primary suite includes a spacious bedroom overlooking the pool, with generous walk-in wardrobe and lavishly-appointed bath with cast-iron Penhaglion tub, dual concrete sinks and crystal chandelier. Additionally, there's a second ensuite bedroom and two sun-lit bedrooms sharing a bath. Merging indoors and picturesque outdoors are multiple glass windows and doors that lead to the bluestone terrace and enchanting spa with waterfall flowing into a gunite pool. Sprawling over almost 3 acres , the property includes lush level lawns, flowering gardens, and specimen wisteria, cherry, birch, maples and magnolias. Waccabuc is one of Westchester's best-loved secret hamlets reveling in its land preserves, and nearby farm markets, award-winning restaurants and the renowned Caramoor and the Katonah Museum of Art. Convenient access to Metro-North and major highways to New York City.
