## Overview

Beautiful, well-maintained home on Main Street not far from Meridian Park! Imagine relaxing on the wrap-around porch with a snack and beverage! (Also imagine the low maintenance with it's composite decking!) As you step inside, you are greeted with a lovely open kitchen-dining area. To the left, your living room and den. Imagine maybe an overstuffed chair or sofa for reading or napping! There is beautiful flooring throughout with some original woodwork and floors. Appliances are included. This home also has the convenience of a main floor laundry and full bath. The attic is finished and would be a great space for toys, hobbies, or maybe your office? There is also a finished room in the basement. Lots of storage! This is a must see!
