Overview

Beautiful property bordering the Tryon International Equestrian Center. The house is surrounded by pasture land and trees. Located in an ideal location for anyone involved in equestrian activities at TIEC. Close proximity to US-74 and within a hours drive of Spartanburg, Greenville, and Asheville. Large shop with metal roof that can hold a minimum of three vehicles with a lean-to attached. There is a unattached carport large enough for RV storage. The original homestead's chicken barn is still standing and can be used for farm animals toward the far left of the property boundary. It has two wells and two septic systems. There is a toilet and shower in the basement that works but needs some maintenance. A laundry chute in the main bathroom connects to the basement. There is a Fisher woodstove in the living room and a potbelly woodstove in the basement. All bed rooms have hardwood flooring. There is a branch at the rear of the property that runs along the boundary with TIEC.
