## Overview

This sweet 1960's Cape Cod style home located in the Boulevards section of Hudson is a short walk to Oakdale Lake and less than one mile to the Hudson Farmer's Market. Enter the front door from your private driveway and into the sun-filled living room with wood floors throughout the home. From the living room you enter into a spacious eat-in-kitchen with original wood cabinets. Create your dream, modern kitchen in the near future! There is a three-season porch right off the kitchen which overlooks the open back yard. Also on the first floor is a large bedroom, a small den/additional bedroom and a full bathroom with a linen closet. On the second floor are two good sized bedrooms. The back yard is large with a shed tucked away in the corner for extra storage in addition to the full basement. The current owners put a new roof on the home in 2023 and upgraded the electric to 200 amp in 2021.
