Overview

This cute little cabin is nestled among boulders with views of the Arrowbear Lake. The cabin is a fixer and could use someone handy with a little vision. Enter the living room which sits centrally. The kitchen and dining area is off to one side and a bedroom area with full bath is located on the opposite side of the house. Enjoy the front sunny deck with views of the seasonal lake. This cabin setting is amazing with boulders surrounding you at every turn. The lake is stocked with fish and is just steps from your front door. Enjoy the park, ball field and play ground. If that wasn't enough, the local ski resort and hiking trails are minutes away.
