## Overview

Absolutely stunning is the only way to describe this beautiful new construction home in Glenview. From the moment you walk into this 5 bedroom 4.5 bath 6000SF+ house you can see the detail and fine craftsmanship. From the extra wide white oak flooring, to the custom solid dark walnut accent pieces, to the massive kitchen and plethora of built in cabinetry throughout you can really feel the quality, detail and size of this home. After passing the beautiful front porch and into the home you are greeted with a formal living room that can double as a home office. You then head into the huge open living, dining and kitchen area. It would be tough to run out of storage space in the kitchen which features just a ton of custom built slim shaker off white cabinets accented with a massive 10x5 foot white oak island draped in quartz. Wolf stainless steel appliances, an 8 burner gas stove, quartz countertops and backsplash, farmhouse sink and massive kitchen island make this the perfect chef's kitchen. The family room has an accented gas fireplace that goes from the floor to the cathedral ceilings that are accented with white oak wood beams. Head upstairs where you'll find 4 big bedrooms, a fully built out laundry room, and 3 full baths. The common hall bath is appointed with stylish tile, 2 sinks, tub/shower combo and a great skylight. Across from it you'll find

a fully built out laundry room with a washer and dryer and custom cabinets built in throughout. The primary bedroom is huge and the primary bathroom features detailed tile work with wood inlays, a soaking tub, a huge shower with a steam function, and wood cabinetry. The 3rd full bath is in what could be the perfect in-law or au-pair bedroom. Head down to the lower level where you'll find a 5th bedroom another full bath and a huge family room with built in cabinetry, bar area, and custom wine cellar. The home is fitted with top of the line triple pain windows that were imported from Europe and are of the highest quality. There is a huge stone patio off the kitchen that leads to a large yard fully fenced in with Cedar! The 3 car garage and big driveway round out this incredible home.
