Overview

This 3 bedroom/1bath charmer offers lots of space, right in South Range. The exterior is vinyl sided, with a metal roof to shed winter's snow and a huge 3 season front porch and smaller deck on the back. The kitchen and the bathroom were gutted and remodeled in 2021. There was a new furnace and hot water heater in 2019 and the washer/dryer are brand new. The living room is large and could easily be divided to add a formal dining room. The first floor has newer laminate flooring but does have hardwood underneath if you choose to refinish them. The three bedrooms, all with hardwood floors, and bathroom are upstairs. One of the bedrooms has a door to the roof of the porch. This has the potential for you to build a deck and railing. There are extra building material, flooring and trim that will go with the home as well.
