Overview

Imagine neighborhood living with 3 acres of beauty as well as an impeccably maintained and gorgeous 4 bedroom, 3 1/2 bath home. Main floor living includes a 2 story great room, study w/fire place, dining room, eat in kitchen area open to family great room, main floor primary suite that is incredible. Entertain in an updated and beautiful kitchen area. Open the doors to the stone patio in a backyard that is beyond expectations. Bring the outside in through spanning two story of windows with the wooded lot, quaint creek running on the far side of the property by the out building that can serve as an entertaining space, storage, golf simulator(just an idea...)and sit on the side covered deck of the out building and view the beautiful wooded lot and creek. This property is one of a kind in this subdivision, and will satisfy the combination of suburban living with country lifestyle. The second level boasts 3 additional bedrooms, 2 baths, an additional loft area, that acts as a bar entertaining space. Put your touches on the unfinished lower level; or simply have additional storage for seasonal decor.
