Overview

Admit it! You've driven by this truly unique log home many times and wondered what it looks like inside. Well now is your chance to own it!! The large, full round scribed log construction is unlike anything else you will see. Construction was started in 2007 (foundation, logs, roof), but essentially nothing else was completed until 2013. This includes plumbing, heating, insulation, electric, hardwood floors, tile floors, a drilled well, and much more. State approved septic was installed in 2007, but not used until 2013. The roof is a standing seam metal roof. The home comes fully furnished right down to the dishes! No corners were cut in this lovingly constructed tiny home, making it top quality. The large outdoor deck makes a great spot to BBQ and relax. There is plenty of parking for your vehicles and a trailer. A new shed has been constructed in the past four years. There is trail access for both snowmobiles and ATV's (with permission, which has been long standing). The location is perfect as it is close to the lakes, restaurants, Young's Store, Moose Alley, hiking trails, and everything else mother nature has to offer. Don't let the size of this home scare you as this would make a great rental property or your own unique home away from home!!
